Name: Elise N. Bustos

Teacher: Mr. Marks

What do you want to know about trees?

How do trees get from a seed to a big tree? What is the life cycle of a tree?

Why are trees important to you?

Trees are important to me for many reasons. One reason is that trees give us paper and homes to animals they give us berries like raspberries, blueberries and blackberries. Trees provide animals with homes to live in such as racoons, birds, squirrels, and monkey's. Trees keep animals

safe from storms. Trees also give us paper to write on. Without paper we would not be able to learn or write. This is why trees are important.

RaisingOurKids.com

Name: Melissa Landa

Teacher: Mrs. Newton

Why are trees important to you?

I think trees are important because they give us oxygen and they also clean our air. I also think trees are important because if it is a sunny day you might want to lay down

in the grass and you enjoy feeling the breeze

not and the trees are blocking the sun so it does not hit you in the eyes

What do you want to know about trees?
I want to know if they will exist like for infinity and will they ever come to extinction?

Happy
Arbor Day!

Name: Perla Vargas

Teacher: Miss Marceau

What do you want to know about trees?

I want to know how they give us clean oxygen. I want to know more about how they're disappearing.

Why are trees important to you?

I like to climb them you

can build tree houses on

them some times you could just

sit down and write some thing

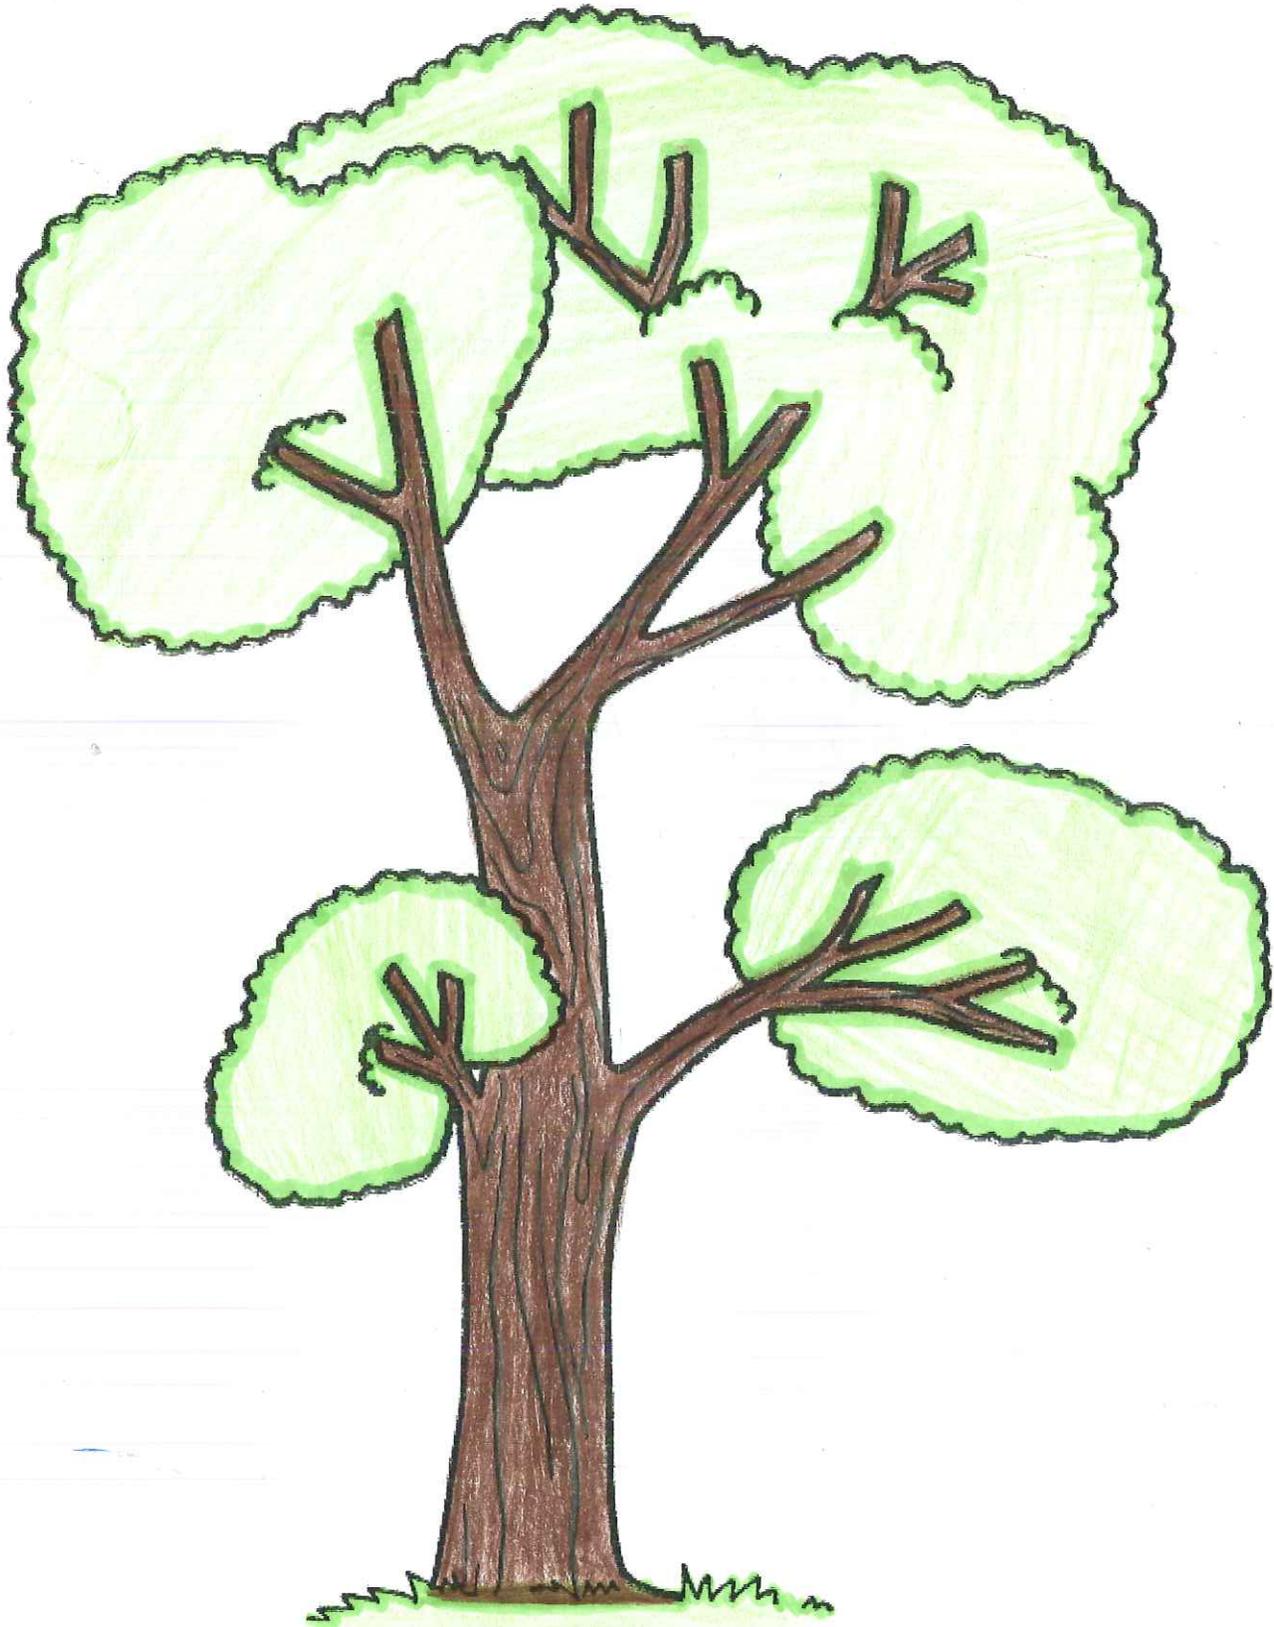

in the shade

Things I know about trees Pevia

Trees give us shade.

Trees give us food. like apples
grapes blue berries and a lot
of other stuff. like paper

that's how we have homes
without trees we will have
to find a nother way to
build homes If we think
about it trees are every
thing.

Tree

Name: Yadira Cortez

Teacher: Mr. Marks

Why are trees important to you?

Because they give
us paper, and fruit
also wood. And the
Birds can build their
homes in the trees. Also Oxygen.

oxygen

What do you want to know about trees?

Why do the leaves fall?

And in the leaves in the

Summer grow back

why is that?
